PROFESSIONAL SUMMARY

Forward-thinking Software Engineering student and Project Management enthusiast with hands-on internship experience in full-stack mobile and web development. Deeply committed to software quality assurance, strict design principles, and seamless maintenance from production to deployment. Possesses a robust foundational background in networking, cybersecurity, and cloud infrastructure, alongside proven leadership, public speaking, and community coordination capabilities.

PROFESSIONAL EXPERIENCE

Software Engineering Intern | Gladtidings Software Limited (Zambia) May 2025 – Present

- **Legacy Application Maintenance:** Collaborate within an agile development team to optimize, debug, and maintain an active, deployed commercial application, ensuring long-term software quality and system compliance.
- **Greenfield Development:** Championed the end-to-end design and implementation of a brand-new software project built completely from scratch, successfully translating client requirements into clean, modular, and scalable code.
- **Quality Assurance:** Standardized software maintenance workflows and refactored core codebases to adhere strictly to software design principles, significantly minimizing engineering technical debt.

Freelance Full-Stack Developer & Digital Marketer | Self-Employed 2024 – Present

- **Web Architecture:** Architect, develop, and deploy bespoke web solutions for diverse local clients using Next.js, Node.js, and modern styling utilities.
- **Database Integration:** Design and implement reliable local and cloud-based data storage solutions utilizing modern systems including Firebase and SQLite.
- **Growth Marketing:** Devise and execute targeted digital marketing strategies, utilizing online content creation and social media page management to fundamentally drive target user engagement.

LEADERSHIP & EXPERIENCE

Vice President | University of Zambia Computer Science Society (UCS) 2025 – Present

- **Community Leadership:** Co-lead the student body's premier tech society, organizing technical workshops, hackathons, and industry networking events to bridge the gap between academic theory and practical engineering workflows.
- **Project Management:** Coordinate executive committee operations, managing detailed project timelines and fostering collaboration on peer-led collaborative student software builds.

SKILLS & COMPETENCIES

Frontend & Mobile: JavaScript, TypeScript, React Native, Next.js, Flutter (Dart)

Backend & Databases: Node.js, Express, Firebase Firestore, SQLite, Python (Learning)

Engineering & Cloud: Software Maintenance, Software Quality Assurance (SQA), Agile Methodology, Project Management, Google Cloud Infrastructure

Networking & Security: Network Architecture, Cyber Operations, Ethical Hacking, Linux Systems

Soft Skills & Professional: Public Speaking, Online Collaboration & Communication, Team Leadership, Singing
Digital Media: Digital Content Creation, Social Media Page Management, Digital & Social Media Marketing

EDUCATION

BSc in Computer Science (Major: Software Engineering) University of Zambia (UNZA)	Expected 2027
Grade 12 Senior Secondary School Certificate (Full Certificate) Lukulu Secondary School	2016 – 2020
Primary School Certificate Lukulu Day Secondary School	2009 – 2015

CERTIFICATIONS

- **CyberOps Associate** | Cisco
- **Ethical Hacking** | Cisco
- **CCNA 1: Introduction to Networks** | Cisco
- **Introduction to Modern AI** | Cisco
- **IT Essentials Certificate** | Cisco
- **NDG Linux Essentials** | Cisco Network Academy
- **Digital and Social Media Marketing Certificate** | UniAthena
- **Beyond Success Training Certificate**
- **Certificate of Leadership and Service** | UNZANASA Debate Club
